

## **A Women's Husband**

A woman accompanied her husband to the doctor's office. After his checkup, the doctor called the wife into his office alone. He said. "If you don't do the following, your husband will surely die."

- Each morning, fix him a healthy breakfast
- Be pleasant and make sure he is in a good mood.
- For lunch, make him a nutritious meal.
- For dinner, prepare him a nutritious meal.
- Don't burden him with chores as he probably had a hard day.
- Don't discuss your problems with him
- Most importantly, you must have sex on a regular basis and satisfy his every whim!"

On the way home, the husband asked his wife what the doctor said to her.

*"You're going to DIE"* she replied

**Organisers of the first "*National Orgasm Week*" held this year were very disappointed with the results obtained.**

**It seems at least three quarters of the women polled just *pretended* to celebrate it!**
