

Engineer Identification Test

You walk into a room and notice that a picture is hanging crooked. You...

- A. Straighten it.
- B. Ignore it.
- C. Buy a CAD system and spend the next six months designing a solar-powered, self-adjusting picture frame while often stating aloud your belief that the inventor of the nail was a total moron.

The correct answer is "C" but partial credit can be given to anybody who writes:

"It depends" in the margin of the test or simply blames the whole stupid thing on "Marketing."
