

Engineer Vs Blonde

Engineers Patrick and Seamus (Dublin mechanical engineers) were standing at the base of a flagpole, looking up.

A blonde woman walked by and asked what they were doing.

"We're supposed to find the height of the flagpole," said Patrick "but we don't have a ladder."

The woman took a wrench from her purse, loosened a few bolts, and laid the pole down.

Then she took a tape measure from her pocket, took a measurement, announced, "5 metres," and walked away.

Seamus shook his head and laughed. "Ain't that just like a blonde!"

"We ask for the height and she gives us the length!"
