

## **Engineers Explained - Honesty**

### HONESTY

Engineers are always honest in matters of technology and human relationships.

That's why it's a good idea to keep engineers away from customers, romantic interests, and other people who can't handle the truth.

Engineers sometimes bend the truth to avoid work.

They say things that sound like lies but technically are not because nobody could be expected to believe them. The complete list of engineer lies is listed below.

"I won't change anything without asking you first."

"I'll return your hard-to-find cable tomorrow."

"I have to have new equipment to do my job."

"I'm not jealous of your new computer."

### FRUGALITY

Engineers are notoriously frugal.

This is not because of cheapness or mean spirit; it is simply because every spending situation is simply a problem in optimization, that is, "How can I escape this situation while retaining the greatest amount of cash?"
