

## **Understanding Engineers – Part 1**

### **Understanding Engineers - Take one:**

Two engineering students were walking across campus when one said, "Where did you get such a great bike?"

The second engineer replied, "Well, I was walking along yesterday minding my own business when a beautiful woman rode up on this bike.

She threw the bike to the ground, took off all her clothes and said, "Take what you want."

"The second engineer nodded approvingly, "Good choice. The clothes probably wouldn't have fit."

### **Understanding Engineers - Take Two:**

To the optimist, the glass is half full. To the pessimist, the glass is half empty. To the engineer, the glass is twice as big as it needs to be.

### **Understanding Engineers - Take Three:**

A pastor, a doctor and an engineer were waiting one morning for a particularly slow group of golfers.

The engineer fumed, "What's with these guys? We must have been waiting for 15 minutes!"

The doctor chimed in, "I don't know, but I've never seen such ineptitude!"

The pastor said, "Hey, here comes the greens keeper. Let's have a word with him."

"Hi George! Say, what's with that group ahead of us? They're rather slow, aren't they?"

The greens keeper replied, "Oh, yes, that's a group of blind fire-fighters. They lost their sight saving our clubhouse from a fire last year, so we always let them play for free anytime."

The group was silent for a moment. The pastor said, "That's so sad. I think I'll say a special prayer for them tonight."

The doctor said, "Good idea. And I'm going to contact my ophthalmologist buddy and see if there's anything he can do for them."

The engineer said, "Why can't these guys play at night?"

### **Understanding Engineers - Take Four:**

What is the difference between Mechanical Engineers and Civil Engineers?

Mechanical Engineers build weapons and Civil Engineers build targets.

### **Understanding Engineers - Take Five:**

The graduate with a Science degree asks, "Why does it work?"

The graduate with an Engineering degree asks, "How does it work?"

The graduate with an Accounting degree asks, "How much will it cost?"

The graduate with an Arts degree asks, "Do you want fries with that?"
